

UST CCD Foundation masterclass — bilingual chapter notes

12 modules from the August 2026 recordings. English and Spanish PDFs are stored in separate folders.

EN Index · English

These notes turn the CCDV-F live transcripts into **one PDF per chapter**, in English and in Spain Spanish (es-ES). Layout uses UST brand tokens (dark teal, Source Sans 3 / Source Serif 4). They are study notes, not official Anthropic or Pearson material.

HOW TO READ

Open the module folder for your language. Start with this index, then M01. When a recording and the live docs disagree, follow docs.claude.com.

SKIPPED RECORDING

A second 10 August file is an 11-minute stub with no teaching content. Module 04 uses the full 10 August afternoon session only.

Module 01: What Claude is and how the Foundation programme works

Session date: **2026-08-03**. English PDFs in *pdf/module-01-en/*; Spanish in *pdf/module-01-es/*.

1. Programme, trainer, and how the four weeks are structured

2. What Claude is: models, products, and where it sits versus other LLMs
3. Claude Chat on the web: first product surface
4. Study posture for the Foundation exam from day one

Module 02: Exam format, Anthropic Academy, and Claude Cowork

Session date: **2026-08-05**. English PDFs in [pdf/module-02-en/](#); Spanish in [pdf/module-02-es/](#).

1. Exam format: MCQ plus written scenarios, not application coding
2. Anthropic Academy, Skilljar, and partner counting
3. Three clients: Chat, Cowork, and Code — and how you reach them
4. Cowork in practice: folders, connectors, sandbox, and usage meters
5. Agentic clients: plan versus execute, MCP, and the Chrome extension

Module 03: Certification tracks and Claude Code

Session date: **2026-08-06**. English PDFs in [pdf/module-03-en/](#); Spanish in [pdf/module-03-es/](#).

1. Four Anthropic certifications after 13 July and who each is for
2. Claude Code: agentic coding versus Chat and Cowork
3. Context window, sessions, and why they are not the same as usage limits
4. Permissions, models, and building with Claude Code

Module 04: Recap of the three products and moving toward APIs and MCP

Session date: **2026-08-10**. English PDFs in [pdf/module-04-en/](#); Spanish in [pdf/module-04-es/](#).

1. Recap: Chat, Cowork, Code and the models behind them
2. From GUI products to Claude APIs
3. MCP as the connector pattern

Module 05: Claude Code in depth: permissions, models, and agents

Session date: **2026-08-12**. English PDFs in [pdf/module-05-en/](#); Spanish in [pdf/module-05-es/](#).

1. Permission modes in Claude Code
2. Slash commands and model selection
3. What an agent is in this course
4. End-to-end generation without writing the app by hand

Module 06: Hooks, local tools, and token-aware Claude Code

Session date: **2026-08-13**. English PDFs in [pdf/module-06-en/](#); Spanish in [pdf/module-06-es/](#).

1. CLAUDE.md versus hooks for formatting and company rules
2. Local execution, sandbox, and why hooks can save tokens
3. Pre-tool hooks and extending the workspace

Module 07: Anthropic SDK: invoking Claude from code

Session date: **2026-08-17**. English PDFs in [pdf/module-07-en/](#); Spanish in [pdf/module-07-es/](#).

1. Installing the Anthropic SDK and API keys
2. Messages, roles, and multi-turn context
3. Streaming versus non-streaming calls
4. Model choice, context window, and cost awareness from the API

Module 08: Prompt engineering for Claude

Session date: **2026-08-19**. English PDFs in [pdf/module-08-en/](#); Spanish in [pdf/module-08-es/](#).

1. Stop sequences and controlling generation
2. Forcing structured output such as JSON
3. Prompt templates and reusable patterns
4. What good Claude prompting looks like for the exam

Module 09: Extended thinking, vision, PDFs, citations, and prompt cache

Session date: **2026-08-20**. English PDFs in [pdf/module-09-en/](#); Spanish in [pdf/module-09-es/](#).

1. Extended / deep thinking
2. Vision: sending images to Claude
3. PDFs, document context, and citations
4. Prompt caching

Module 10: Tool use, MCP, and exam-attempt guidance

Session date: **2026-08-24**. English PDFs in [pdf/module-10-en/](#); Spanish in [pdf/module-10-es/](#).

1. Why tools exist: context beyond the prompt
2. Defining and calling tools in the API
3. MCP servers versus ad-hoc tools
4. How the trainer framed sitting the certification exam

Module 11: RAG with Claude and building agents

Session date: **2026-08-26**. English PDFs in *pdf/module-11-en/*; Spanish in *pdf/module-11-es/*.

1. RAG recap: retrieve, augment, generate
2. Vector stores in the lab: MongoDB Atlas / Voyage-style embeddings
3. Agent SDK / agentic implementation steps

Module 12: Built-in tools, responsible AI, and exam prep

Session date: **2026-08-27**. English PDFs in *pdf/module-12-en/*; Spanish in *pdf/module-12-es/*.

1. Built-in tools inside agents
2. Permissions, safety, and guardrails
3. Responsible AI for enterprise Claude apps
4. Exam prep guide and mock practice
